Independent Auditor's Report

To the Board Members
Birmingham Area Cable Board

Opinions

We have audited the financial statements of the governmental activities and the General Fund of Birmingham Area Cable Board (the "Board") as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise Birmingham Area Cable Board's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of Birmingham Area Cable Board as of June 30, 2024 and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities* for the Audit of the Financial Statements section of our report. We are required to be independent of the Board and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board Members Birmingham Area Cable Board

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Board's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Plante & Moran, PLLC

December 19, 2024

Management's Discussion and Analysis

Our discussion and analysis of Birmingham Area Cable Board's (the "Board") financial performance provides an overview of the Board's financial activities for the fiscal year ended June 30, 2024. Please read it in conjunction with the Board's financial statements.

Using This Annual Report

This annual report consists of three parts: (1) management's discussion and analysis (this section), (2) the basic financial statements, and (3) required supplementary information. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

The basic financial statements include information that presents two different views of the Board:

- The first column of the financial statements includes information on the Board's General Fund under the
 modified accrual method. These fund financial statements focus on current financial resources and provide a
 more detailed view about the accountability of the Board's sources and uses of funds.
- The adjustments column of the financial statements represents adjustments necessary to convert the fund financial statements to the government-wide financial statements under the full accrual method of accounting.
- The third column presents the Board's operations on a full accrual basis, which provides both long- and shortterm information about the Board's overall financial status. The statement of net position and the statement of activities provide information about the activities of the Board as a whole and present a longer-term view of the Board's finances.

Condensed Financial Information

The following tables show key financial information in a condensed format for the government-wide statements of net position and activities:

		2023	
Assets Current and other assets Capital assets - Net	\$	1,620,564 \$ 134,613	1,661,802 162,945
Total assets		1,755,177	1,824,747
Liabilities - Accounts payable		78,020	1,089
Net Position Net investment in capital assets Restricted for public, education, and government (PEG) Unrestricted		134,613 880,999 661,545	162,945 1,082,983 577,730
Total net position	\$	1,677,157	1,823,658

Management's Discussion and Analysis (Continued)

	2024		2023
Revenue Franchise fees PEG fees Investment income (loss)	\$	304,820 \$ 308,559 49,070	328,799 333,393 (182)
Total revenue		662,449	662,010
Expenditures PEG operations Board expenditures		538,651 270,299	367,419 248,841
Total expenditures		808,950	616,260
Net Change in Net Position		(146,501)	45,750
Net Position - Beginning of year		1,823,658	1,777,908
Net Position - End of year	\$	1,677,157 \$	1,823,658

The Board as a Whole

- The Board reports a net position of \$1,677,157 this year on a full accrual basis, as compared to a fund balance of \$1,505,742 on the modified accrual basis of accounting.
- The Board recorded accounts payable of \$78,020 in the current year and \$1,089 in the prior year.
- The Board's primary source of revenue is from franchise and PEG fees. For 2024, total fees collected under a full accrual basis were \$613,379. This represents the majority of revenue.
- The largest expenditure of the Board, other than the issuance of grants, is for the agreement with Bloomfield Community Television (BCTV). For 2024, this expenditure was \$308,300, representing approximately 39 percent of the General Fund's total expenditures.
- Expenses for PEG operations increased by \$171,232, or 47 percent. This increase is primarily due to an increase in grants in the current year.
- Expense for board operations increased by \$21,458, or 9 percent. This increase is primarily due to a increased amount of unspent franchise fees distributed back to the communities.
- Total expenditures for the entire year under the modified accrual basis of accounting were \$780,618.

The General Fund

Our analysis of the Board's General Fund is included on pages 6 and 7 in the first column of the respective statements. The fund column provides detailed information about the General Fund on a modified accrual method, which is a short-term perspective measuring the flow of financial resources, not the Board's operations on a full accrual basis of accounting, which provides a longer-term measurement of total economic resources. The Board's only fund is the General Fund. The fund balance of the General Fund decreased by \$99,180 during the year.

Board Budgetary Highlights

The Board's budget for revenue for 2024 was \$573,015, with actual revenue under the modified accrued basis coming in at \$681,438. Franchise and PEG fees came in higher than anticipated. As of June 30, 2024, the Board has \$36,802 in unavailable revenue, which is due to receiving the fees from the communities after the period of availability. The unavailable revenue will be recognized as revenue in the next fiscal year. On the expenditure side, the total budget was \$841,100 and actual expenditures were \$780,618. The variance is primarily due to fewer expenditures for the production truck, grants, program expenses, professional fees, and municipal support services.

Management's Discussion and Analysis (Continued)

Capital Assets and Debt Administration

At year end, the Board had \$134,613 invested in a production van and related equipment. In 2024, the Board had \$0 of additions and \$13,199 of disposals of equipment.

The Board carries no long-term debt.

Economic Factors and Next Year's Budgets and Rates

The Board's revenue budget for fiscal year 2025 decreased from the fiscal year 2024 results. The Board believes consumer spending on traditional cable television will slow due to the increase in popularity and availability of streaming services, which do not currently pay franchise or PEG fees. The potential loss of revenue from franchise and PEG fees may be offset, however, by the providers' annual increases in cable television rates charged to consumers who have chosen to remain as traditional cable subscribers. The Board is monitoring new rules promulgated by the Federal Communications Commission (FCC) that may reduce PEG revenue, as well as proposed legislation that may impact franchise or PEG revenue. The Board will continue to exercise fiscal discipline with respect to board operating expenses, which may result in a return of certain uncommitted franchise fee revenue to each of the participating municipalities at the end of the fiscal year via an administrative grant. PEG revenue will be managed in accordance with parameters outlined in applicable state and federal statutes.

Requests for Further Information

If you have questions about this report or need additional information, we welcome you to contact Cathy White at 248-336-9445 or via email at exec@birminghamareacableboard.org.

Note 1 - Significant Accounting Policies

Reporting Entity

Birmingham Area Cable Board (the "Board") was created through an interlocal agreement between the City of Birmingham, Michigan and the villages of Beverly Hills, Bingham Farms, and Franklin, Michigan (collectively, the "Parties"). The Board was organized to obtain for the Parties the economies of scale implicit in combining cable revenue and sharing cable expenses, rather than independently operating separate facilities. The Board is composed of 13 members: 7 representatives are appointed by the City of Birmingham, Michigan; 4 representatives are appointed by the Village of Beverly Hills, Michigan; 1 representative is from the Village of Bingham Farms, Michigan; and 1 representative is from the Village of Franklin, Michigan. While not a governmental entity per se, the Board has elected to be treated as one for purposes of financial reporting, meeting policies, and investment purposes. The accompanying financial statements present Birmingham Area Cable Board's assets and liabilities. No other component units have been combined into the Board's basic financial statements.

Accounting and Reporting Principles

The Board follows accounting principles generally accepted in the United States of America (GAAP), as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board. The following is a summary of the significant accounting policies used by the Board:

Report Presentation

Governmental accounting principles require that financial reports include two different perspectives - the government-wide perspective and the fund-based perspective. The General Fund column presents its activities on the modified accrual basis of accounting, as discussed above, which demonstrates accountability for how the current resources have been spent. The government-wide column is presented on the economic resources measurement focus and the full accrual basis of accounting in order to measure the cost of providing government services and the extent to which constituents have paid the full cost of government services.

On the full accrual basis of accounting, revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Fund Accounting

The Board accounts for its activities in one governmental fund. The General Fund is the primary operating fund and accounts for all financial resources used to provide services.

Basis of Accounting

The General Fund uses the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the Board has spent its resources.

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures (rather than as capital assets) because they reduce the ability to spend resources in the future.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For this purpose, the Board considers amounts collected within 60 days of year end to be available for recognition. Some franchise and PEG fee revenue may be collected after the period of availability; receivables have been recorded for these, along with a deferred inflow.

Note 1 - Significant Accounting Policies (Continued)

Specific Balances and Transactions

Cash and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value.

PEG Activity

The Board has established two local channels for broadcasting to local cable subscribers, one for public and a second for government activities. Birmingham Public School District operates a third educational channel. The three channels are commonly referred to as PEG channels. The public and governmental channels are administered by the Board, and the educational channel is administered by Birmingham Public School District. In order to fund the administration of the public and governmental channels, the Board receives financial support in the form of PEG fees from its cable providers in the amount of 2-3 percent of the cable providers' gross revenue in each community. By state and federal law, these funds are restrictively dedicated for use on PEG-related projects. A portion of these PEG fees can be and is allocated to the Parties and Birmingham Public School District upon a grant request. The unused portion as of the end of the year has been classified as restricted fund balance/net position.

Capital Assets

Capital assets, which include equipment and vehicles, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the Board as assets with an initial individual cost of more than \$500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following useful lives:

Capital Asset Class	Depreciable Life
Production van Equipment	5 to 20 years 5 to 10 years

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then. The Board had no deferred outflows of resources.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. Unavailable revenue qualifies for reporting in this category and arises only under a modified accrual basis of accounting. Unavailable revenue is reported only on the General Fund balance sheet. The General Fund reports unavailable revenue from franchise and PEG fees. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Net Position

Net position of the Board is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation. The restricted component of net position consists of restricted PEG balances, as described above, reduced by liabilities related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

Note 1 - Significant Accounting Policies (Continued)

Fund Balance Flow Assumptions

The Board will sometimes fund outlays for PEG purposes from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Board's policy to consider PEG restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of the General Fund is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The Board itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board's highest level of decision-making authority. The board members are the highest level of decision-making authority for the Board that can, by passing a resolution prior to the end of the fiscal year, commit fund balance. Once passed, the limitation imposed by the resolution remains in place until a similar action is taken (the passing of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The board members may also assign fund balance as they do when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist only temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

At present, the Board has also adopted the following fund balance policies:

Franchise Fees

On annual basis, the Board determines the amount of an administrative grant to the communities. This grant is based, in part, on the amount of the previous year's audited franchise fee revenue in excess of board expenditures.

PEG Fees

The Board should carry a PEG fund balance equal to 0.75 times accumulated net depreciation of its capital assets, plus an amount equal to one-half of a three-year running average of PEG grants plus three months of Bloomfield Community Television and programming expense.

Grants

In addition to its two-channel (public and governmental) programming, the Board allocates PEG fees to the member communities (or their affiliated entities) or Birmingham Public School District upon a grant request. These grants are reported in the financial statements as operating grants. Unused franchise fees collected by the Board are returned to the Parties annually on a pro rata basis in accordance with the Board's franchise fee fund balance policy. The return of unused franchise fees is reported in the financial statements as administrative grants.

Note 1 - Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Note 2 - Deposits and Investments

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The law also allows investments outside the state of Michigan when fully insured. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications that matures no more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions that are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Board has designated a broker-dealer and one credit union for the deposit of its funds. The investment policy adopted by the Board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CDs but not the remainder of state statutory authority, as listed above. The Board's deposits and investments are in accordance with statutory authority.

The Board's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that, in the event of a credit union or counterparty failure, the Board's deposits may not be returned to it. The Board does have an investment policy that addresses custodial credit risk. At year end, the Board had no uninsured or uncollateralized deposits.

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The Board's investment policy requires structuring the maturities of the portfolio to meet cash requirements, investing in short-term securities of investment pools, and purchasing securities with the intent to hold to maturity.

At year end, the Board had the following investments and maturities:

	Less Than									
Investment		Fair Value		1 Year	1-5 Years					
Negotiable certificates of deposit	\$	418,927	\$	239,360	\$	179,567				
Federal Home Loan Bank bonds		585.803		98.678		487.125				

Notes to Financial Statements

June 30, 2024

Note 2 - Deposits and Investments (Continued)

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Board's investment policy does not further limit its investment choices. As of June 30, 2024, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Car	rying Value	Rating	Rating Organization
Negotiable certificates of deposit	\$	418,927	N/A	Not rated
Federal Home Loan Bank bonds		585,803	AAA	Moody's

Concentration of Credit Risk

The Board's investment policy minimizes concentration of credit risk by placing a limit on the amount it may invest in any one issuer, the maximum being limited to available FDIC insurance. More than 5 percent of the Board's investments are in negotiable certificates of deposit; these investments are approximately 42 percent of the Board's total investments. While the Board does have certain issuers that are more than 5 percent of the Board's investments, no one issuer is over the FDIC insurance limit.

Note 3 - Fair Value Measurements

The Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Board's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Board has the following recurring fair value measurements as of June 30, 2024:

• Negotiable certificates of deposit and Federal Home Loan Bank bonds of \$418,927 and \$585,803, respectively, are valued using a matrix pricing model (Level 2 inputs).

The Board did not have any investments valued with Level 1 or 3 inputs at June 30, 2024.

Note 4 - Amount on Deposit at the Village of Beverly Hills, Michigan

Franchise fees and PEG fees collected by the Parties are initially remitted to the Village of Beverly Hills, Michigan on behalf of the Board. The Village of Beverly Hills, Michigan, acting as the Board's agent, uses the franchise fees to pay for certain of the Board's monthly expenditures and periodically remits the remaining balance to the Board.

Notes to Financial Statements

June 30, 2024

Note 5 - Capital Assets

Capital asset activity of the Board's governmental activities was as follows:

	J	Balance July 1, 2023				Additions	posals and ljustments	Balance June 30, 2024		
Capital assets being depreciated: Equipment Production van	\$	206,528 977,352	\$	-	\$ (13,199)	\$	193,329 977,352			
Subtotal		1,183,880		-	(13,199)		1,170,681			
Accumulated depreciation: Equipment Production van		137,895 883,040		9,388 18,944	 (13,199) -		134,084 901,984			
Subtotal		1,020,935		28,332	(13,199)		1,036,068			
Net capital assets	\$	162,945	\$	(28,332)	\$ 	\$	134,613			

Note 6 - Risk Management

The Board is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation). The Board has purchased commercial insurance for claims relating to general liability and property. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

Note 7 - Reconciliation of General Fund Column to the Statement of Net Position/Statement of Activities

Net position reported in the statement of net position column is different than the fund balance reported in the General Fund column because of the different measurement focus and basis of accounting, as discussed in Note 1. Below is a reconciliation of the differences:

Fund Balance Reported in General Fund	\$ 1,505,742
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources and are not reported in the General Fund	134,613
Receivables that are collected after year end, such that they are not available to pay bills outstanding as of year end, are not recognized in the General Fund	 36,802
Net Position of Governmental Activities	\$ 1,677,157

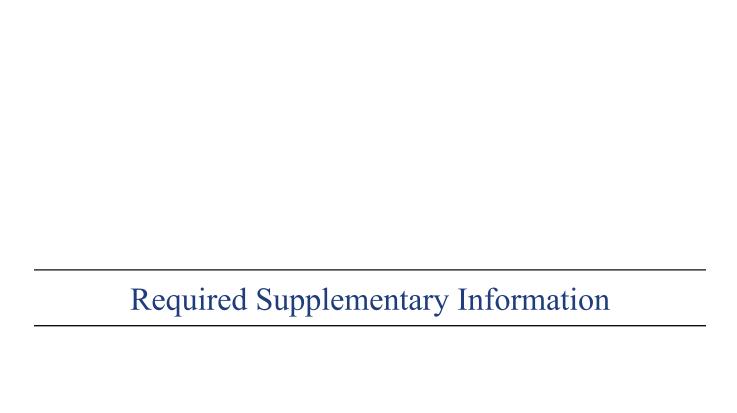

Notes to Financial Statements

June 30, 2024

Note 7 - Reconciliation of General Fund Column to the Statement of Net Position/Statement of Activities (Continued)

The change in net position reported in the statement of activities column is different than the change in fund balance reported in the General Fund column because of the different measurement focus and basis of accounting, as discussed in Note 1. Below is a reconciliation of the differences:

Net Change in Fund Balance Reported in General Fund	\$ (99,180)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation - Depreciation expense	(28,332)
Revenue is recorded in the statement of activities when earned; it is not reported in the General Fund until collected or collectible within 60 days of year end	 (18,989)
Change in Net Position of Governmental Activities	\$ (146,501)

Note to Required Supplementary Information

June 30, 2024

Budgetary Information

The annual budget is prepared by the executive director and adopted by the Board on a line-item basis; subsequent amendments are approved by the Board. The individual line items in the adopted budget are the legal level of budgetary control. Unexpended appropriations lapse at year end; encumbrances are not included as expenditures. The amount of encumbrances outstanding at June 30, 2024 has not been calculated.

The budget has been prepared in accordance with accounting principles generally accepted in the United States of America.

Excess of Expenditures Over Appropriations in Budgeted Funds

During the year, Birmingham Area Cable Board incurred expenditures that were in excess of the amounts budgeted as follows:

	Budget		Actual		Variance	
Administrative grants Executive director	\$	153,540 40,000	\$	174,122 40,227	\$	(20,582) (227)

The variances were due to an increase in approved administrative grants and higher payroll costs.
